

Skilled Immigrant Integration Program (SIIP) National Technical Assistance and Coaching Providers

Community College Consortium for Immigrant Education (CCCIE)

- Providing best-practices on ways to leverage community colleges to help in the integration of immigrants and refugees through education
- Advising communities on ways to build relationships with community colleges to better serve immigrants and refugees
- Developing programs at community colleges targeted toward immigrant and refugees with international training and experience

National Skills Coalition (NSC)

- Understanding state and federal public investments (funding streams) in workforce development, job training, and adult education
- Developing model language for state legislative or governor's administrative policy proposals related to skills development initiatives for immigrants and refugees
- Learning about how other states or localities have implemented an adult education or workforce policy that is inclusive of immigrants and refugees and/or English learners
- Advocating with state or local policymakers to encourage them to advance policies that will help immigrant and refugee workers and adult learners to build skills and access better jobs
- Building coalitions that bring advocates for U.S.-born workers and adult learners together with immigrant and refugee advocates in joint efforts on skills policy issues

Upwardly Global

- Developing direct career services for skilled immigrants and refugees
- Building industry-specific programming, including re-licensing and re-credentialing support
- Creating an employer engagement strategy
- Understanding online learning platforms for reskilling initiatives
- Understanding data analytics to improve and create effective programs
- Using technology for optimization and innovation
- Building volunteer programming

Welcome Back Center

- Building health care career pathway programs

- Navigating health care licensing and certification as well as overcoming regulatory barriers in the health care sector
- Developing contextualized ELL for immigrant and refugee health care professionals
- Developing multi-sector partnerships to support immigrant and refugee health care professionals

Welcoming Center for New Pennsylvanians (WCNP)

- Creating immigrant- and refugee-centered workforce development programs
- Developing immigrant career pathway planning tools
- Leveraging WIOA funding to support immigrant and refugee professionals
- Building an **International Professionals Program**

WES Global Talent Bridge

- Understanding credential assessment and recognition by leveraging WES staff to share their expertise
- Leveraging international education to pursue professional licensing and certification
- Developing career pathways that utilize international credentials
- Connecting communities to programs and initiatives that serve internationally trained immigrants and refugees in Canada
- Providing data and talking points to support the development of workforce integration strategies for internationally trained immigrants and refugees
- Sharing examples of successful state and local measures that address the under- and unemployment of immigrants and refugees with international education and experience
- Providing technical assistance on communications strategies about immigration, under- and unemployment of internationally trained immigrants and refugees, economic mobility, and best practices for ELL and workforce instruction
- Developing contextualized ELL workforce programs and supporting and training staff working with internationally trained immigrants and refugees
