

NEW WOMEN NEW YORKERS

PROPELLING IMMIGRANT WOMEN TO GREATER HEIGHTS

LEARNING INTERVIEW SKILLS @ LEAD

BEFORE

- Be prepared to explain your specific interests for the company and position, and why you are the right candidate.
- Prepare stories to answer common interview questions, including behavioral questions (we'll talk about this more later during this session).
- Prepare questions for the interviewer.

DURING

- Maintain good eye contact during the interview and pay attention to your body language, even if you are in a virtual interview.
- Be concise and clear in your explanations, keep a professional tone.
- Respond to questions and back-up your statements with specific examples whenever possible.

AFTER

- Make notes right away about what went well and less well during the interview, so that you can learn lessons and have a better interview next time.
- Evaluate the interviewer and the organization s/he represents; an interview is a two-way street, you need to be sure that the position is a good fit for you!
- Send interviewer a thank you email the **day after interview**.
